MAKING SUCCESS A HABIT

A Blueprint for Enhancing Personal and Organizational Capability

SUMMARY

When change disrupts your organization and you are in transition, sometimes it can be difficult for you and your team to see clearly what's possible for you, to shift and move forward. IS THIS YOU?

You find it difficult to sustain the excitement and energy needed to implement your changes. You and/or your team:

- Feel bogged down at the thought of having to implement a new vision or project.
- Are already stressed out from doing your existing jobs, and you now need to take on new work, or get involved in additional projects.
- Are experiencing burnout.

SOLUTION

MAKING SUCCESS A HABIT is a hard-hitting, introspective, game-changing experience. It is an inside-out approach to your personal and organizational success. You will leave this experience with the ability to:

- Get inspired again.
- Recognize the signs of burnout in yourself and your team members.
- Rediscover your passion and your enthusiasm.
- Develop a new strategic plan or team vision.
- Maximize your—and other team members'—contributions while nurturing your own personal growth and development.
- Avoid allowing stress to become a habit.

"Carol helped me to develop and build a collaborative, cohesive team. Originally established as a change team—key category leaders—their performance was critical to the success of the organization's marketing initiatives, and they were divided and in continuous conflict. After a powerful intervention with Carol, I saw an instant change in their working relationships and the overall working environment improved tremendously."

"We were faced with a massive challenge of merging the personnel from three different hospitals. This required about 1,000 people to be reassigned in work assignments and locations, and it involved layoffs and different reporting relationships. All of this created a great deal of resistance. I have never seen such a paradigm shift in people as a result of working with Carol. I highly recommend her for any tough change effort you're faced with in your organization."

Director - Human Resources

"As a seasoned, senior marketing executive across several business industries, coaching with Carol proved invaluable. She customized a series of powerful sessions that enabled me to quickly produce a 180 degree turnaround in a critical business relationship. What's amazing about working with Carol is that she not only teaches you, she also makes you think and creates in you a paradigm shift that instantly changes behavior. She is able to have you see the very things stopping you from reaching excellence that you never knew existed. I know of no other coaching approach that produces as quickly and effectively as the one Carol uses. If you want to move yourself to the next level—get to the place you dream about—working with Carol will definitely make a difference."

"I have been to a lot of training programs within my career and I have never had an experience that had as much impact as the past two days. In most cases, it is always "role playing," and that is not real life. What we did was real. It was real feelings, real emotions, and most of all, it was the truth!"

"Every now and then someone comes along who has spent a lifetime preparing for what is needed at a particular time. In these times, you need a wise guide who thinks insightfully, presents clearly, is perceptive and compassionate and inspires you to accomplish things you had previously thought were impossible. Carol is the person."
